Dear Plan Sponsor at Process Controls Corporation,

I recently conducted a comprehensive fiduciary health audit of the Department of Labor Form 5500 filings for the Process Controls Corporation 401(k) plan. Based on our analysis, we identified key opportunities to optimize your plan design, enhance participant returns, and insulate your committee from regulatory risk.

Your plan's primary indicators currently align well with benchmark thresholds. However, periodic fee validation and fiduciary structural checks are highly recommended to ensure you continue to receive institutional pricing as your assets grow.

We would love to offer your committee a complimentary, side-by-side benchmarking report that details actionable steps to minimize fiduciary risk and elevate employee retirement success.
