Fiduciary Risk Assessment & Key Recommendations

• **Fiduciary Oversight Safe:** All checked indicators reside within healthy guidelines. We recommend completing periodic vendor benchmarks every 3 years to maintain institutional pricing structures as plan assets expand.

Advisor Fiduciary Assessment Outreach Proposal

Subject: Fiduciary Health & Fee Diagnostic for Pulos Family Dentistry 401(k) Plan

Dear Plan Sponsor at Pulos Family Dentistry,

I recently conducted a comprehensive fiduciary health audit of the Department of Labor Form 5500 filings for the Pulos Family Dentistry 401(k) plan. Based on our analysis, we identified key opportunities to optimize your plan design, enhance participant returns, and insulate your committee from regulatory risk.

Specifically, our analysis flagged the following areas for immediate review:

- **Participation Gap**: The plan's active employee participation rate is 13.3%, falling below the 70% target. Low participation often triggers discrimination testing limits and restricts executive savings. We specialize in auto-enrollment designs and streamlined education plans to drive engagement.

We would love to offer your committee a complimentary, side-by-side benchmarking report that details actionable steps to minimize fiduciary risk and elevate employee retirement success.

Are you open to a brief 15-minute call next Tuesday or Thursday to walk through our findings?

Best regards,
